FINAL ACTION EXPECTED ON DRAFT TODAY

Ponder Roll Call Vote On Whittled Down Ex- tension Bill

(By Associated Press)
WASHINGTON, April 15.—Re-
covered from a case of roll call
fright, house members clamored
today for a recorded vote on pas-
sage of a cut down draft extension
bill.

They were still smarting from
cries of "politics" shouted Sat-
urday during debate that preceded
adoption of amendments ordering
a five-month induction "holiday"
and a ban against drafting teen-
agers.

There were no roll call votes, on
which the members are recorded in-
dividually, when the bill was put in
shape for final approval today.

No one asked for a roll call on
banning the induction of 18 and
19 year olds, and fewer than 50
members demanded a record vote
on the amendment halting all in-
ductions between May 15 and
Oct. 15.

With more than 300 members on
the floor, 61 requests were neces-
sary before the roll call could be
called.

Roll Call Doubtful
Whether there would be sufficient
demands to force a roll call today
on a pending motion to recommen-
dation and thereby kill it was
doubtful.

That motion was the only thing
remaining before formal passage
sends the measure to the senate
where, army spokesmen said, they
hope to remove the amendments.

The actual form of the extension
undoubtedly will be decided by a
senate-house conference committee.
In this connection, Rep. Spark-
man (Ala.), house Democratic whip
and a member of the chamber's
military committee, said that should
the senate follow the house pattern
it would be better for the Presi-
dent to veto it than sign it into
law.

The sudden desire for a roll call
vote on final passage in the house
was interpreted by many members
as indicating a general desire to
get "on the record" in favor of ex-
tending the draft law until next
Feb. 15. It now is due to expire
May 15.

Library Shows Gain In Circulation and Borrowers In 1945

The Salem public library has 4-
513 registered borrowers and an
average daily circulation of 207, it
is disclosed in the 1945 report of
Alice R. Gladden, who recently re-
signed as head librarian.

Total circulation for the year was
63,190, a gain of 2,088 over 1944
while the number of borrowers was
increased to its present figure by
the registry of 1,111 new readers
and the re-registry of 119 others.

Deming Re-elected
G. R. Deming was re-elected
president of the board at a recent
meeting. Other officers re-elected
include:

Charles McCorkill, vice presi-
dent; Mrs. W. H. Dunn, secretary,
and Lee B. Vincent, treasurer. Other
members of the board are Mrs. E.
S. Dawson, Mrs. F. J. Emery, B. G.
Ludwig and W. E. Young.

Library workers answered 1,302
questions in the reference room
during 1945 and 1,114 persons used
the room for study. The addition
of many important reference books
keeps the local library's collection
up-to-date.

Columbiana Man Dies As Auto Upsets On Route 164

One person was killed and three
injured in five traffic accidents in-
vestigated by Salem state highway
patrolmen during the weekend.

Killed:
James Luther Hendrickson, 40, of
R. D. 2, Columbiana.

Injured:
Forest Hendrickson, 24, R. D. 2,
Columbiana.

Arthur W. Struble, 36, of Poland,
lacerations and bruises.

Joseph Wessel, 36, R. D. 1, East
Palestine, lacerations and bruises.
Hendrickson was killed instantly
at 2 a. m. today when a car in
which he was riding, driven by
Janet Frye, 25, of R. D. 2, Colum-
biana, overturned on Route 164,
half way between Columbiana and
North Lima, the patrolmen said.

Miss Frye told the officers she
lost control of the car and it
overturned on the road. Hendrickson
was thrown from the auto and
dragged underneath it as it rolled
over, they said.

Chest Is Crushed
He suffered a crushed chest and
injuries to his head. Patrolmen
said he was dead before the am-
bulance arrived from Columbiana.
His brother, Arthur, suffered minor
bruises and abrasions. Miss Frye
was uninjured.

Struble and Wessel were injured
at 12:15 p. m. Saturday when their
cars collided on Route 170, just
north of East Palestine, patrolmen
said. Both were treated by a physi-
cian in East Palestine.

Cars driven by William Bott, 61,
of R. D. 1, East Palestine, and
Clarence Seachrist, 27, of R. D. 1,
New Waterford, collided on Route
558 at the intersection of the Neg-
ley-Peace Valley road at 10:15 p. m.
Saturday. No one was injured.

No one was hurt at 8:45 p. m.
Saturday when automobiles driven
by Harry N. Glover, 36, of Chester,
W. Va., and Morris Muster, 47, of
New York City, collided on Route
30 just north of East Liverpool.

A car driven by Leroy Reeder, 32,
of Hanoverton and another op-
erated by Mathias J. Kufleitner, 32,
of R. D. 2, Salem, collided on
Route 9, just south of Salem, at
12:20 a. m. Sunday. No injuries
resulted.

Funeral Wednesday
Hendrickson, a welder at the En-
terprise Co., Columbiana, was a
member of the Eagles lodge and
had lived in Columbiana for the
past year, going there from Kansas
City, Mo.

He was born in Cairo, W. Va.,
March 12, 1906, the son of James
Blaine and Sarah Richardson Hen-
drickson. He married Mrs. Geraldine
Caswell Hendrickson of Columbiana
in Kansas City, Mo., Sept. 25, 1942.

Surviving are his wife; two chil-
dren, Dolores Jean and Gaylord B.,
both of Kansas City, Kans.; his
mother, now in Cairo; four broth-
ers, Foreman of Pike, W. Va., Cecil
of Gig Harbor, Wash., Forest and
Victor of Columbiana; three sisters,
Mrs. Conrad Schofield of Pike, W.
Va., Mrs. Glen Johnson and Mrs.
Raymond Carrico, both of Colum-
biana.

Funeral service will be held in
Cairo, W. Va., at 3 p. m. Wednesday.
Burial will be in the Ingram Ridge
cemetery there.

Calling hours will be observed at
Fry funeral home in Columbiana
Tuesday evening.

DEBATE LOOMS ON OPA ISSUE

House To Argue Price Control Extension Sought By Truman

(By Associated Press)
WASHINGTON, April 15.—Friends
and foes of OPA manned their
biggest oratorical guns today, wait-
ing for the signal that will open
house debate on the bitterly con-
tested issue of price control exten-
sion.

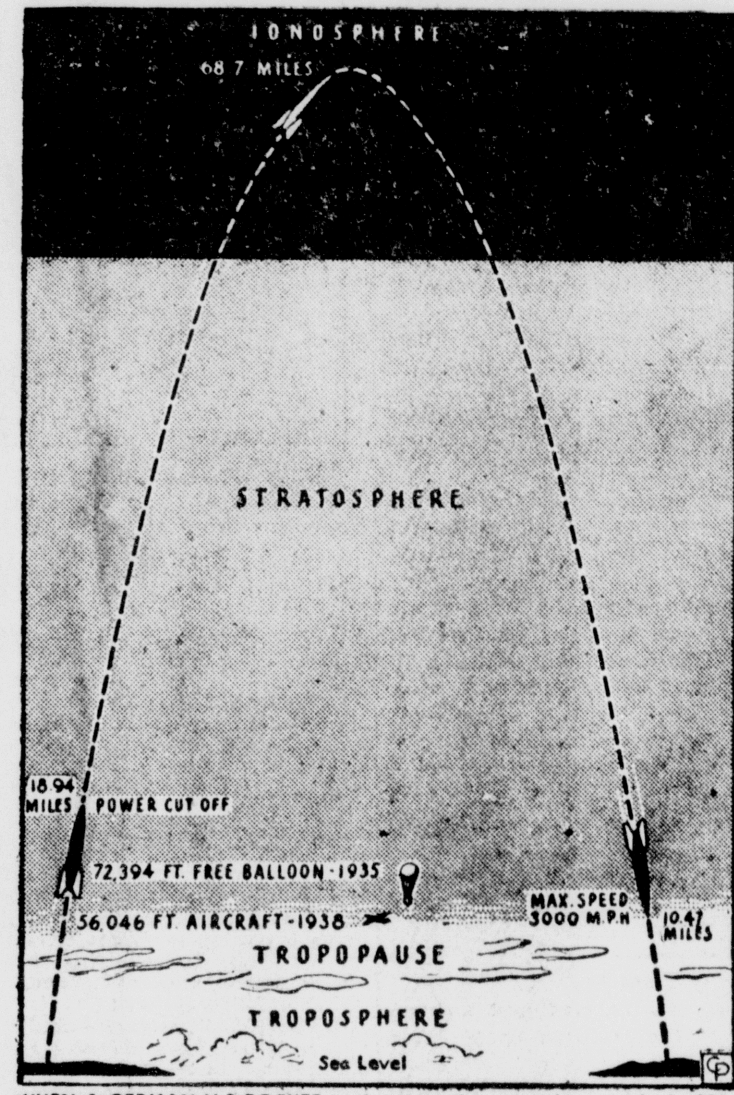

The outcome poses for President
Truman the severest test on econ-
omic policy since he entered the
White House.

Rep. Monroney (D-Okla.) told
newsmen "there is danger OPA will
be so amended—and made powerless
to prevent inflation—that even the
enemies of price control will be
ashamed of their handiwork."

Before the legislative firing could
get underway in the house, that
chamber planned to dispose of an-
other red hot issue—draft exten-
sion—then take up a pay raise for
the armed services and devote part
of the program to an observance of
Pan American day.

Thus the actual debate may not
begin until about the time set for
a mid-afternoon meeting of cotton
state senators to give the price con-
trol agency a going over. Some have
proposed that OPA be diverted of
control over all farm products.

POSSIBLE PATH OF NAZI V-2 ROCKET

WHEN A GERMAN V-2 ROCKET is shot into the ionosphere early in May
for the purpose of scientific research, its flight path is expected to
follow the course outlined in the above chart. The rocket will be re-
leased from the Army Ordnance proving ground at White Sands, N. M.,
and will carry scientific instruments to an expected height of more than
68 miles above the earth. From the findings, scientists expect to get
important information from the upper atmosphere. (International)

IT'S PAN AMERICAN DAY Truman Calls On Republics For Hemispheric Solidarity

(By Associated Press)
WASHINGTON, April 15.—
President Truman called upon the
American republics today to help
eradicate "the poverty and despair"
which breed wars.

Speaking at a Pan American day
observance, Mr. Truman urged con-
tinued hemispheric solidarity and
resistance to the "forces of reac-
tion" in the atomic era's "great and
dangerous adventure."

"That (atomic) age," he told the
governing board of the Pan Am-
erican union, "will either be one of
complete devastation, or one in
which new sources of power will
lighten the labors of mankind and
increase standards of living all over
the world."

The president declared in a pre-
pared speech that willingness to use
force, if necessary, to prevent even
the threat of aggression, "will not
of itself eliminate the deep causes
of unrest such as those responsible
for the wars."

Born of Poverty, Despair
"Underneath the Nazi madness
were the material distress and
spiritual starvation born of poverty
and despair," he said.

"The danger of war will never
be completely wiped out until these
economic ills which constitute the
roots of war are themselves elimi-
nated."

"To do that we must achieve the
kind of life—material, cultural and
spiritual—to which the peoples
of this world are entitled. To that
objective we must dedicate all our
energies and resources."

This objective, he said, is em-
bodied in the word, "democracy."
"It is fortunate that we of the
Pan American nations have cer-
tain common, fundamental un-
derstandings of what the word 'de-
mocracy' means."

"Despite our differences in lan-
guage and cultures, we do have in
common a love of liberty, a recog-
nition of the dignity of man and a
desire to improve the well-being of
our citizens."

"Certain political rights," he
said, "are fundamental to freedom
—free speech, a free press, the right
of peaceable assembly, freedom of
conscience and the right of the
people to choose their form of gov-
ernment."

"It is obvious that these goals re-
quire first of all the efforts of each
nation within itself. But if we
have learned anything in the last
decade it is that no nation can
stand alone. Only through a gen-
uine co-operative effort can these
goals be achieved in the world at
large."

Revive Slaughter Quotas For Meat Packers

(By Associated Press)
WASHINGTON, April 15.—
The government announced to-
day that more wartime slaugh-
ter controls will be restored soon
in a move to curb black markets
in meat.

OPA and the Agriculture de-
partment, in a joint statement,
said a slaughter quota system
will be put into effect to pro-
vide "better" distribution of
of the country's present meat
supply through established
channels and at ceiling prices.

This, the agency said, will
make it possible for established
packers to obtain more live-
stock, and thereby increase
their production to more nearly
normal levels.

4 JAPS JAILED AT HARD LABOR

Sentenced After Con- viction of Doolittle Air- men's Execution

SHANGHAI, April 15.—Four
Japanese army officers were sen-
tenced today by an American mil-
itary tribunal to from five to nine
years in prison at hard labor for
the kangaroo court trial and ex-
ecution of three Doolittle airmen.

The three airmen, Lts. Dean E.
Hallmark of Dallas, Tex., and Wil-
liam G. Farrow of Darlington, S. C.,
and Sgt. Harold A. Spatz, Lebo,
Kans., were executed under the Ja-
panese "enemy airmen's law."

The law was enacted by the Ja-
panese war ministry after the Doo-
little raid and made retroactive to
cover the captured fliers.

In passing sentence after two
days' deliberation, Col. Edwin R.
McReynolds of Washington, D. C.,
chief of the commission, said the
commission found that high Ja-
panese government military officers,
other than the defendants, were
"responsible for the enactment of
the enemy airmen's law and issuance
of specific instructions as to how
American prisoners should be
treated, sentenced and punished."

The Sentences
The sentences were:
Lt. Gen. Shigeru Sawada, former
commander of the Japanese 13th
army—five years at hard labor.
The commission found that Sawada
"had no knowledge of the trial,
which was ordered by his superiors,
until he returned from the front
three weeks later."

Capt. Sotajiro Tatsuta, com-
mander of the execution party—
five years at hard labor. Said the
commission, Tatsuta acted "only in
his official capacity" and was "only
obeying specific instructions" from
his superiors. There is no evidence
to show he mistreated the pris-
oners.

Capt. Yusui Wako, courtmartial
judge—nine years.

Lt. Ryuhel Okada, courtmartial
judge—five years.

The commission found that both
accepted fraudulent testimony with-
out question but in passing the
death sentence "acted on direct,
specific instructions from superiors."

Wako was sentenced to nine
years because he had legal train-
ing.

All sentences are to be served at
"hard labor."

Sentenced To Pen For Store Crimes

LISBON, April 15.—Joseph Pow-
ers, 40, of Youngstown, indicted on
joint charges of assault with intent
to rob an East Liverpool A. & P.
store manager and the armed rob-
bery of a Letonia A. & P. entered
court this morning and was senten-
ced to serve from 1 to 15 years and
from 10 to 25 years in the Ohio
penitentiary.

Judge Joel Sharp allowed a re-
quest by the defense attorney that
the two sentences by allowed to run
concurrently.

Powers was indicted along with
two other Youngstown men, Joseph
Bova and Joseph Cerina, both of
whom already are serving similar
sentences from a Mahoning county
court.

Raymond Everette of Salem, in-
dicted by the grand jury on a petty
larceny charge, pleaded guilty to
stealing tires and tools from a gar-
age owned by H. C. Hurlburt and
was placed on two years' probation
by the judge.

Judge Sharp announced that he
would hear a motion for a new trial
in the case of Mrs. Olive May Long
of Wellsview, convicted by jury of
the first degree murder of her in-
fant daughter.

ALA IS GIVEN INSTRUCTIONS FROM TEHRAN

Country Satisfied Soviet Troops Will Be Gone By May 6

(By Associated Press)
TEHRAN, Iran, April 15.—Prince
Mozaffar Firouz, propaganda di-
rector, said today that Hussein Ala,
Iranian ambassador to the United
States, has been instructed "imme-
diately to withdraw Iran's com-
plaint before the Security council."

The nation previously had made
an issue before the United Nations
over the continued presence of
Russian troops, which Moscow now
says will be withdrawn by May 6.

Releases Statement
Firouz made this statement:
"Today, we have given certain in-
structions to Mr. Ala. You are
aware of the results of the agree-
ment between the imperial Iranian
government and Soviet Russia con-
cerning evacuation of all Persian
territory by May 6."

"Conditions and circumstances
which dictated the giving of the
complaint to the Security council
no longer arise and in view of the
fact that yesterday afternoon, the
Russian ambassador again catego-
rically reiterated to his excel-
lency, the prime minister, that com-
plete and unconditional evacuation
by the Red army would be com-
pleted by May 6, instructions have
been sent this morning by the Persian
government informing its repre-
sentative in New York of the new
pledge of the Soviet government
and instructing him that since the
Persian government has complete
confidence in the word and pledge
of the Soviet government, he is in-
structed immediately to withdraw
the complaint before the Security
council."

Disperses Fears
Firouz also disclosed that Iran
would inform the council that the
Tehran government "has no doubt"
that the recent Soviet-Iranian
agreement will be "loyally and hon-
orably carried out."

He said that new instructions
had been telegraphed to Ala, Iran-
ian ambassador to the United
States, "to the effect that he would
inform the Security council that
on the conclusion of the Soviet-
Persian agreement it was agreed
that Soviet troops would evacuate
all Persia by May 6."

Firouz said that Ala also was
"instructed to inform the council
of the facts in the case, and of the
fact that we do not doubt that the
agreement will be carried out."

"The Persian government cannot
not fix a course to be taken by the
council, which must itself, under
its regulations, make the necessary
decision," he added.

The agreement, besides establish-
ing the May 6 deadline for the Rus-
sian withdrawal, provides for the
creation of a Russian-Iranian oil
company and specifies that the
problem of dealing with an auto-
nomous government established in
Iran's Azerbaijan province is an
"internal" one for Iran to handle.

Quaker City Band To Join Memorial Day Parade May 30

The Quaker City band, now in the
re-organization stage under the
sponsorship of the American Legion,
will participate in the city's annual
Memorial day parade, it was an-
nounced today.

The band is re-organized with
the assistance of a number of "Old
Timer" musicians.

A meeting, held at the Legion
home Thursday, got the initial
steps under way and plans were
completed for the first practice at
the home at 8 p. m. Thursday.

Ralph Sturgeon will be in charge
of the rhythm and percussion sec-
tion, Lester Baldinger will organize
the reed section, brass instruments
will be in charge of Capt. Robert
Barton and Don Harvey. Leo Co-
pacchia is furnishing the necessary
equipment for the organization.

Band officials said any interested
musicians not connected with other
groups of this type are asked to
report for practice. No one who is
a member of the Salem High school
band is eligible for membership as
the two groups may conflict on
dates of future engagements.

Legion membership is not man-
datory to participate.

Library Shows Gain In Circulation and Borrowers In 1945

The Salem public library has 4,513 registered borrowers and an average daily circulation of 267. It is disclosed in the 1945 report of Alice R. Gladden, who recently resigned as head librarian.

Total circulation for the year was 63,190, a gain of 2,088 over 1944 while the number of borrowers was increased to its present figure by the registry of 1,111 new readers and the re-registry of 119 others.

Deming Re-elected
G. R. Deming was re-elected president of the board at a recent meeting. Other officers re-elected include:

Charles McCormick, vice president; Mrs. W. H. Dunn, secretary, and Lee B. Vincent, treasurer. Other members of the board are Mrs. E. S. Dawson, Mrs. F. J. Emery, B. G. Ludwig and W. E. Young.

Library workers answered 1,302 questions in the reference room during 1945 and 1,114 persons used the room for study. The addition of many important reference books keeps the local library's collection up-to-date.

Sixty-five magazines and five daily newspapers, many of them yearly subscribers, or gifts from Salem clubs and civic organizations, helped 3,164 readers keep up with current topics of interest.

The children's room, a vital part of the library, is a place where every child is given individual attention in the selection of reading matter.

Miss Gladden's report also revealed that the library's assembly room was used for 70 meetings by four club's and the Ministerial association during the year.

Free book service to city hospital patients, which was continued last year, was again begun in 1945. A truck, laden with books, made a trip to the hospital every Monday afternoon. More than 1,000 books were issued at the hospital during 1945.

Thus the actual debate may not begin until about the time set for a mid-afternoon meeting of cotton state senators to give the price control agency a going over. Some have proposed that OPA be diverted of control over all farm products.

Bankhead Disgusted
Senator Bankhead (D-Ala.), who called the meeting of senators, declared, "I'm disgusted with the way the OPA is being run, and if they don't improve it I'll vote to knock the whole thing out."

Meanwhile, Chester Bowles, the economic stabilizer, retraced his steps to Capitol Hill to urge before the senate banking committee that OPA be continued another year without weakening amendments.

The present price control act expires June 30.

The congressional uprising against OPA became so bitter that even one of the agency's foremost critics, Rep. Hartley (R-N.J.), urged "moderation" in the house debate and action on amendments.

Paul Porter, OPA administrator, has contended that amendments already put into the bill by the house banking committee would cost consumers \$2,000,000,000 in the next 12 months, including a 10 per cent boost in clothing prices and an overall \$425,000,000 increase in the retail costs of automobiles.

Administration supporters said privately, however, they would consider themselves fortunate to limit OPA revisions to those written by the banking committee.

Already written and awaiting only formal introduction are amendments to:

1. Force OPA to drop its \$750,000,000 a year meat subsidy and allow meat ceilings to rise proportionately.

2. Require OPA to fix price ceilings so as to assure each manufacturer a profit on every product he makes. Prices now are fixed on an industry wide basis.

Manslaughter Charge To Be Filed In Crash

LISBON, April 15.—Coroner Ernest Sturgis said that he would file manslaughter charges sometime today against Daniel Marchbanks of Hanoverton, who was driving the car which overturned on the Y & O road near Rock Camp late Wednesday night, killing Samuel Belch, also of Hanoverton.

Marchbanks told the coroner he lost control of the car as it rounded a curve.

injuries to his head. Patrolmen said he was dead before the ambulance arrived from Columbiana. His brother, Arthur, suffered minor bruises and abrasions. Miss Frye was uninjured.

Struble and Wessel were injured at 12:15 p. m. Saturday when their cars collided on Route 170, just north of East Palestine, patrolmen said. Both were treated by a physician in East Palestine.

Cars driven by William Bott, 61, of R. D. 1, East Palestine, and Clarence Seachrist, 27, of R. D. 1, New Waterford, collided on Route 558 at the intersection of the Negley-Peace Valley road at 10:15 p. m. Saturday. No one was injured.

No one was hurt at 8:45 p. m. Saturday when automobiles driven by Harry N. Glover, 36, of Chester, W. Va., and Morris Muster, 47, of New York City, collided on Route 30 just north of East Liverpool.

A car driven by Leroy Reeder, 32, of Hanoverton and another operated by Mathias J. Kufelner, 32, of R. D. 2, Salem, collided on Route 9, just south of Salem, at 12:20 a. m. Sunday. No injuries resulted.

Funeral Wednesday
Hendrickson, a welder at the Enterprise Co., Columbiana, was a member of the Eagles lodge and had lived in Columbiana for the past year, going there from Kansas City, Mo.

He was born in Cairo, W. Va., March 12, 1906, the son of James Blaine and Sarah Richardson Hendrickson. He married Mrs. Geraldine Cassell Hendrickson of Columbiana in Kansas City, Mo., Sept. 25, 1942.

Surviving are his wife; two children, Dolores Jean and Gaylord B., both of Kansas City, Kans.; his mother, now in Cairo; four brothers, Raymond of Pike, W. Va., Cecil of Gig Harbor, Wash., Ernest and Victor of Columbiana; three sisters, Mrs. Conrad Schofield of Pike, W. Va., Mrs. Glen Johnson and Mrs. Raymond Carrio, both of Columbiana.

Funeral service will be held in Cairo, W. Va., at 3 p. m. Wednesday. Burial will be in the Ingram Ridge cemetery there.

Calling hours will be observed at Fry funeral home in Columbiana Tuesday evening.

BOY, 4, DIES IN FALL FROM PONY

Gary Lippiatt Dies In Hospital After Accident On Sunday

Four-year-old Gary Lynn Lippiatt, son of Mr. and Mrs. Clarence Lippiatt of 916 Benton road, died at 6:15 p. m. Sunday in the Central Clinic from a skull fracture received when he fell from a pony he was riding near his home early yesterday afternoon.

The child, who would have been four on May 7, was riding a pet pony near the family home at about 2:30 p. m. Sunday when the tragedy occurred. Coroner Ernest Sturgis said the boy's foot caught in the stirrup as he fell and was dragged along the ground.

He suffered a fracture at the base of the skull, several vertebrae dislocations and body bruises.

Born in Salem May 7, 1942, he was the son of Clarence and Eleanor Doyle Lippiatt, proprietors of the Red Steer restaurant.

Also surviving are a brother, Richard Allen of the home and his grandparents, Mr. and Mrs. John Lippiatt of Salem and James Doyle of Alliance.

The funeral service will be held at the Stark Memorial at 2 p. m. Wednesday in charge of Rev. George D. Keister. Burial will be in Grandview cemetery.

Friends may call at the family home anytime Tuesday.

Begin Experiment To Solve Storm Menace To Air Safety

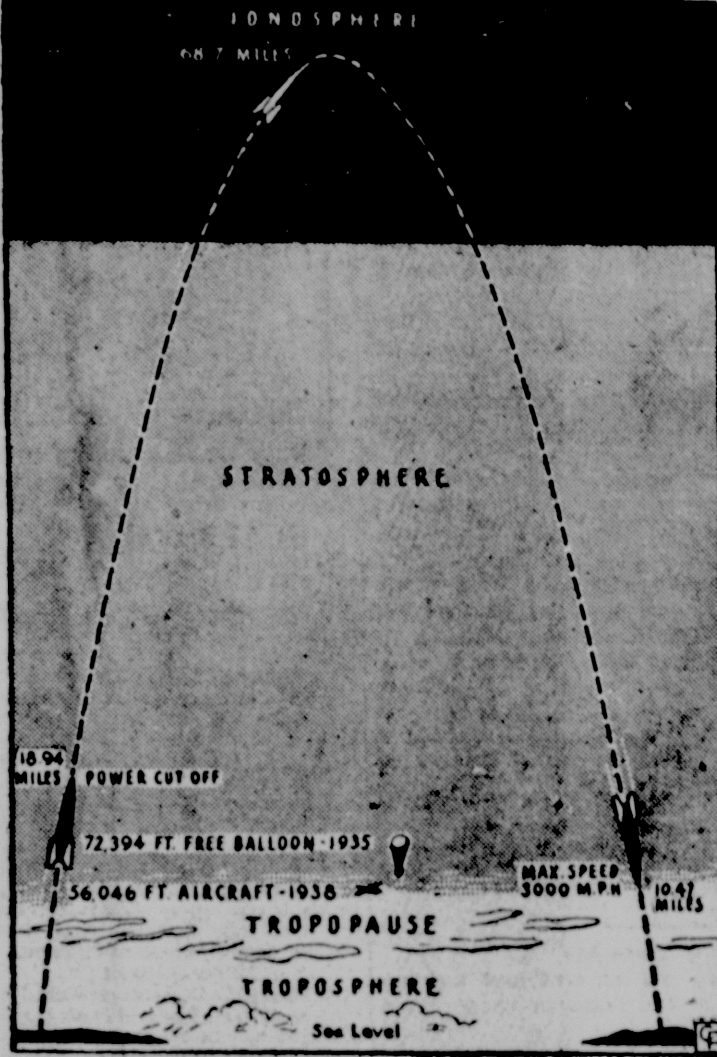

By ROBERT R. GOLDENSTEIN
CHICAGO, April 15.—Scientists seeking to overcome the last major obstacle to all-weather flying have begun a three-year search for a link in the armor of the thunderstorm.

Congress has appropriated \$200,000 for the project which is being carried out under auspices of the Army, Navy, Weather bureau and the National Advisory Committee For Aeronautics.

Weather instruments, radar equipment, sail planes, P-51 Black Widow army aircraft and navy "Dumbo" planes are being assembled at Orlando, Fla., for on-the-spot tests in the region of the greatest frequency in the nation.

The P-51's are scheduled to make simultaneous traverses through the clouds at heights of 5,000 to 25,000 feet. Navy "dumbo" planes, like those earmarked for use in the atomic bomb tests in the Pacific, will be sent aloft when flying conditions are too perilous for pilots.

POSSIBLE PATH OF NAZI V-2 ROCKET

WHEN A GERMAN V-2 ROCKET is shot into the ionosphere early in May for the purpose of scientific research, its flight path is expected to follow the course outlined in the above chart. The rocket will be released from the Army Ordnance proving ground at White Sands, N. M., and will carry scientific instruments to an expected height of more than 66 miles above the earth. From the findings, scientists expect to get important information from the upper atmosphere. (International)

IT'S PAN AMERICAN DAY Truman Calls On Republics For Hemispheric Solidarity

(By Associated Press)
WASHINGTON, April 15.—President Truman called upon the American republics today to help eradicate "the poverty and despair" which breed wars.

Speaking at a Pan American day observance, Mr. Truman urged continued hemispheric solidarity and resistance to the "forces of reaction" in the atomic era's "great and dangerous adventure."

"That (atomic) age," he told the governing board of the Pan American union, "will either be one of complete devastation, or one in which new sources of power will lighten the labors of mankind and increase standards of living all over the world."

The president declared in a prepared speech that willingness to use force, if necessary, to prevent even the threat of aggression, "will not of itself eliminate the deep causes of unrest such as those responsible for the wars."

Born of Poverty, Despair
"Underneath the Nazi madness were the material distress and spiritual starvation born of poverty and despair," he said.

"The danger of war will never be completely wiped out until the economic ills which constitute the roots of war are themselves eliminated," he said.

"To do that we must achieve the kind of life—material, cultural and spiritual—to which the peoples of this world are entitled. To that objective we must dedicate all our energies and resources."

This objective, he said, is embodied in the word, "democracy."

"It is fortunate that we of the Pan American nations have certain common, fundamental understandings of what the word 'democracy' means."

"Despite our differences in language and cultures, we do have in common a love of liberty, a recognition of the dignity of man and a desire to improve the well-being of our citizens."

"Certain political rights," he said, "are fundamental to freedom—free speech, a free press, the right of peaceable assembly, freedom of conscience and the right of the people to choose their form of government."

"It is obvious that these goals require first of all the efforts of each nation within itself. But if we have learned anything in the last decade it is that no nation can stand alone. Only through a genuine co-operative effort can these goals be achieved in the world at large."

On the ground, a closely-spaced network of weather stations will record minute pressure changes and related phenomena that occur during a thunderstorm.

The national thunderstorm project is directed by Horace R. Byers, on leave of absence from the University of Chicago's Department of Meteorology.

Fog, ice formations on wings and excessive air turbulence are the three major obstacles to all-weather flying.

Radar and engineering developments must overcome fog and icing. Byers said, but thunderstorms are a meteorological problem still largely unsolved.

The primary purpose of the study, he added, was to find a simple procedure for guiding planes around or through thunderstorm areas. Because the nature of such storms is not thoroughly understood at the present time, planes usually are grounded.

Revive Slaughter Quotas For Meat Packers

(By Associated Press)
WASHINGTON, April 15.—The government announced today that more wartime slaughter controls will be restored soon in a move to curb black markets in meat.

OPA and the Agriculture department, in a joint statement, said a slaughter quota system will be put into effect to provide "better distribution of the country's present meat supply through established channels and at ceiling prices."

This, the agency said, will make it possible for established packers to obtain more livestock, and thereby increase their production to more nearly normal levels.

4 JAPS JAILED AT HARD LABOR

Sentenced After Conviction of Doolittle Air-men's Execution

SHANGHAI, April 15.—Four Japanese army officers were sentenced today by an American military tribunal to from five to nine years in prison at hard labor for the kangaroo court trial and execution of three Doolittle airmen.

The three airmen, Lt. Dean E. Hallmark of Dallas, Tex., and William G. Farrow of Darlington, S. C., and Sgt. Harold A. Spatz, Lebo, Kas., were executed under the Japanese "enemy airmen's law."

The law was enacted by the Japanese war ministry after the Doolittle raid and made retroactive to cover the captured fliers.

In passing sentence after two days' deliberation, Col. Edwin R. McKeen of Washington, D. C., chief of the commission, said the commission found that high Japanese government military officers, other than the defendants, were "responsible for the enactment of the enemy airmen's law and issuance of specific instructions as to how American prisoners should be tried, sentenced and punished."

The Sentences
Lt. Gen. Shigeru Sawada, former commander of the Japanese 13th army—five years at hard labor. The commission found that Sawada "had no knowledge of the trial, which was ordered by his superiors, until he returned from the front three weeks later."

Capt. Sotajiro Tatsuta, commander of the execution party—five years at hard labor. Said the commission, Tatsuta acted "only in his official capacity" and was "only obeying specific instructions from his superiors. There is no evidence to show he mistreated the prisoners."

Capt. Yusui Wako, courtmartial judge—nine years.

Lt. Ryuhel Okada, courtmartial judge—five years.

The commission found that both accepted fraudulent testimony without question but in passing the death sentence "acted on direct, specific instructions from superiors."

Wako was sentenced to nine years because he had legal training.

All sentences are to be served at "hard labor."

Sentenced To Pen For Store Crimes

LISBON, April 15.—Joseph Powers, 40, of Youngstown, indicted on joint charges of assault with intent to rob an East Liverpool A. & P. store manager and the armed robbery of a Leetonia A. & P. entered a plea of guilty in common pleas court this morning and was sentenced to serve from 1 to 15 years and from 10 to 25 years in the Ohio penitentiary.

Judge Joel Sharp allowed a request by the defense attorney that the two sentences by allowed to run concurrently.

Powers was indicted along with two other Youngstown men, Joseph Bova and Joseph Cerina, both of whom already are serving similar sentences from a Mahoning county court.

Raymond Everstine of Salem, indicted by the grand jury on a petty larceny charge, pleaded guilty to stealing tires and tools from a garage owned by H. C. Hurlburt and was placed on two years' probation by the judge.

Judge Sharp announced that he would hear a motion for a new trial in the case of Mrs. Olive May Long of Wellsville, convicted by jury of the first degree murder of her infant daughter.

Mrs. Long's attorneys indicated they would appeal to high courts if the motion is overruled.

ALA IS GIVEN INSTRUCTIONS FROM TEHRAN

Country Satisfied Soviet Troops Will Be Gone By May 6

(By Associated Press)
TEHRAN, Iran, April 15.—Prince Mozaffar Frouz, propaganda director, said today that Hussein Ali, Iranian ambassador to the United States, has been instructed "immediately to withdraw Iran's complaint before the Security Council."

The nation previously had made an issue before the United Nations over the continued presence of Russian troops, which Moscow now says will be withdrawn by May 6.

Releases Statement
Frouz made this statement: "Today, we have given certain instructions to Mr. Ala. You are aware of the results of the agreement between the imperial Iranian government and Soviet Russia concerning evacuation of all Persian territory by May 6."

"Conditions and circumstances which dictated the giving of the complaint to the Security Council no longer arise and in view of the fact that yesterday afternoon, the Russian ambassador again categorically reiterated to his excellency, the prime minister, that complete and unconditional evacuation by the Red army would be completed by May 6, instructions have been sent this morning by the Persian government informing its representative in New York of the new pledge of the Soviet government and instructing him that since the Persian government has complete confidence in the word and pledge of the Soviet government, he is instructed immediately to withdraw the complaint before the Security Council."

Disperses Fears
Frouz also disclosed that Iran would inform the council that the Tehran government "has no doubt" that the recent Soviet-Iranian agreement will be "loyally and honorably carried out."

He said that new instructions had been telegraphed to Ala, Iranian ambassador to the United States, "to the effect that he would inform the Security Council that on the conclusion of the Soviet-Persian agreement it was agreed that Soviet troops would evacuate all Persia by May 6."

Frouz said that Ala also was "instructed to inform the council of the facts in the case, and of the fact that we do not doubt that the agreement will be carried out."

"The Persian government cannot fix a course to be taken by the council, which must itself, under its regulations, make the necessary decision," he added.

The agreement, besides establishing the May 6 deadline for the Russian withdrawal, provides for the creation of a Russian-Iranian oil company and specifies that the problem of dealing with an autonomous government established in Iran's Azerbaijan province is an "internal" one for Iran to handle.

A Sickle To Grind

In a pamphlet by Harold Laski, chairman of the British Labor party's executive committee, the case against admitting Communists to party membership is stated in these words:

"Since it regards itself as the vanguard of the proletariat, the Communist party must permeate the ranks of the Labor party in order to dominate its life. Thus only can it prepare for that dictatorship which is the necessary method of consolidating its authority after the proletariat has hurled the bourgeoisie from power. It therefore works quite deliberately toward a one-party state."

Communists, Laski points out, hope to move into power after a "long period of economic ruin which would break the nation's faith in the institutions of parliamentary democracy."

This is not isolated testimony. It is the thought of a political scientist who has worked a lifetime with the British labor movement. It is, moreover, testimony with bearing on the position of the Communist party in the United States, which tends to follow in many of its social trends patterns already familiar in Britain. There is the same issue between Communists and moderates in the American labor movement, even though it is not yet understood here so clearly as Laski understands it in England.

Within the last few days, the Greater New York Central Trades and Labor Council ordered its three-quarters of a million AFL members to boycott this year's May day parade, charging that the parade is run by Communists.

A CIO union identified with that organization's "pink wing," the United Electrical Radio and Machine Workers, recently attacked Secretary of State Byrnes Senators Vandenberg and Connally, Herbert Hoover Edward R. Stettinius Jr. and, more broadly, the Truman administration. Its attack was based on resentment of a foreign policy alleged to be unfriendly to Russia. "The fight," reported The New York Times, "is similar to that which raged within the CIO during the period of the Nazi-Soviet pact when left-wing unions were accusing President Roosevelt of being an 'imperialist' and a 'war-monger' and were charging that 'monopolists' were leading this country into a war in support of Great Britain. When Hitler turned his troops against Russia, these unions became prime supporters of the Roosevelt policy."

In a recent convention of United Automobile Workers, no secret was made of the fact that the fundamental issue lay between the social and economic philosophies of Walter Reuther, an avowed socialist, and R. J. Thomas and George F. Addes, who were favored by the union's Communist minority. There have been numerous instances before, during and since the war when organized labor's leaders and spokesmen have grappled with and sometimes admitted they were grappling with the issue of Communist control of labor organizations.

The gravest indictment brought against the Roosevelt administration by its critics and the most damaging accusation against the Truman administration is that the United States government, in the name of broader rights for organized labor, has given the methodical sickle grinders of the left wing influence out of all proportion to their numbers and to their following among American working people.

There are times when one looks in vain for signs in the American labor movement that its moderate members comprehend the highness of the stakes for which the Communist minority is playing. The Communists are not interested in the principles of Samuel Gompers, who believed in a larger share for workers. They are hoping to establish the principles of Karl Marx, who believed in exclusion of all other rights—and in the practices of his followers who believe in economic and political dictatorship. Their method, as Harold Laski says, is to induce economic ruin as the requisite for breaking the established order.

They Can Bet On It

Congressional judgment on the question of drafting manpower for military service in peacetime is influenced strongly, all observers point out, by the fact this is an election year.

Congressmen fear that a vote in favor of national security might lose them votes among their displeased constituents. Most of them would welcome a chance to take themselves off the spot by voting for some complex measure no one could understand.

Six years ago, when the Selective Service Act was passed, congressmen went through the same throes of political agony. It was an election year. The United States was not at war. Yet, for prudence, a draft law, first in peacetime history, was under consideration.

The administration, though wanting the law, tried to dodge responsibility by letting the opposition propose it. The bills on which final action was taken in September were passed 47 to 25 in the Senate, 232-124 in the House. The minority, playing politics, voted heavily against selective service, a decision that was to lay a heavy curse on its prestige throughout the war. The majority, also playing politics but smarter politics in this case, eventually made political capital out of its support of the selective service proposal.

There is no cause to believe, in short, that the easy way to popularity with voters is always to insult their intelligence and dignity. There are enough voters who want a prudent policy of preparedness to back up members of Congress who vote to continue the draft until all America's military commitments have been satisfied.

Germany's Delayed Victories

Germany's military power is shattered, but German power to wage war is still manifest in millions of emaciated bodies and desperate minds in Europe.

The objectives of starvation was as important in

German plans as the blitz of English cities. It called for systematic elimination of millions of Europeans who had been judged by Hitler and his band of assassins to be unworthy of life. It called for the weakening of other nationalities, to the point where they could be slaves of Germany but could not be their own masters. In the National Socialist blueprint for a Germanized Europe starvation was as much a weapon as the airplane, the rocket, or the booby trap. Moreover, it was a weapon with long-range effect, something that would continue to work for Germany years after the close of the war's fighting phase. Its casualties would accumulate for a generation—malformed bodies, distorted ideas, lack of energy, hate, declining birth rates, rising death rates.

They would challenge Germany's enemies to act without the stimulus of combat. If they failed—if starvation continued—Germany still could win World War II, because Germans were the best nourished population in Europe. That is why there is need for food relief in Europe. The war isn't over, not while the marks of German terror are still visible. The victories of famine, disease and desperation are belated, but they are victories for Hitlerism nevertheless.

The Stars Say

Tuesday, April 16

ACCORDING to the lunar aspects between major planets, the pleasant and prosperous relations of this day may depend upon the degree of good will, amiability and prudence exercised in the behavior and general attitude toward perplexing situations.

There may be an indomitable impulse to engage in short, turbulent or argumentative words and deeds, or possibly toward an inclination to excesses, indulgence or extravagance. All of this may work against the favorable influence of those whose good will and substantial support are essential to happy results.

If It Is Your Birthday

Those whose birthday it is have a lucrative year according to the manner in which they meet certain perplexing or trying situations. A tendency to harsh, abrupt and generally extravagant conduct, with tumultuous feelings and emotional urges may stand in the way of offers of solid support of those in influential places, whose friendship is significant. It is a time to cultivate these and to plant seeds of kindness rather than arbitrary attitudes.

A child born on this day may stand in the way of its own progress and happiness in life by its impulsive, careless or wayward tendencies. It should be schooled.

GUARDING YOUR HEALTH

Modern Ways To Help Facial Neuralgia

BY HERMAN N. BUNDESEN, M.D.

ONE of the most mercurial services ever rendered by medical science was its conquest of the douloureux or facial neuralgia because of all the ills that flesh is heir to, this can be one of the most agonizingly painful.

Most frequent in persons between 40 and 60, it causes sudden attacks of violent pain in the face. It may be so severe that victims scream for relief, and frequent that they are in almost constant torture.

Milder Attacks
In others, the attacks are milder, coming only seldom and lasting but a short time. In either case the attacks may be brought on by a chance touch of the face, or by such movements as are involved in eating or talking.

The douloureux has been known for centuries, though even today its exact cause remains a mystery. Nonetheless, modern medicine has found a way to relieve it. In 1890, an operation for abolishing the fierce pain of this disorder was devised—an operation, which has since been so perfected and refined that it stands as a monument to the skill of modern surgery.

Cutting Nerve
This operation consists in cutting a part of the trigeminal nerve in the face. It is, of course, a highly delicate and skill-requiring operation. Extreme care must be taken to cut only one part of the nerve. Should that part which serves the muscles be severed, parts of the face will be paralyzed and facial muscles waste away.

For these reasons, people with the milder type of the douloureux will wish for less drastic forms of relief and these are available in the form of aspirin and other pain-killing preparations. It should be noted, however, that such things give only temporary ease from pain.

Freezing the painful area with ethyl chloride spray is another frequently used temporary measure. According to Dr. Wilfred Harris of London, application of heat may only make bad matters worse.

Alcohol Injections
Sometimes, instead of resorting to operations, doctors prefer to inject the branches of the nerve with alcohol. This will often get rid of the pain, but the procedure is something which must be handled

only by an expert and gives only temporary relief.

It has been suggested that at times the douloureux may be relieved by giving large injections of vitamin B-complex. However, in many instances this method of treatment has not been found successful.

Of course, pain in the face may be produced by many disorders other than trigeminal neuralgia. There may be some inflammation of the muscles, or the difficulty may be due to decayed teeth or possibly to what are known as impacted teeth, which means teeth that have not come through the gums.

Hence, whenever pain in the face develops a careful study by a specialist in disorders of the nervous system would appear advisable. X-rays of the teeth should be taken to help in making a diagnosis.

If found that the pain is due to trigeminal neuralgia and is not severe, treatment with medicines may be attempted. If the pain is more severe, alcohol injections might prove of value in the most cases, operation may be carried out.

Letters to Dr. Bundesen should be addressed in care of 235 E. 45th st., New York City.

GOOD JOB—
but what about
MONEY?

A LOT OF THINGS go to make a good job. Interesting work, vacations, the people you work with. But the big consideration is money. Take-home pay—savings—provision for the future. Those are the things that count.

Compare the average job with a job in the Army.

Suppose you make \$200 a month, when you're working. After all the deductions have been taken out—and after paying for rent, groceries, clothes and doctors' bills—how much have you left?

Army pay starts at \$50 a month for a Private. But a big proportion of men in the new peacetime Army are specialists, with higher grades and pay. Suppose you're a Technical Sergeant, making \$114 a month base pay. You get your food, clothing, housing and medical and dental care free. Insurance, amusements and incidentals cost you far less. And if you enlist before July 1, 1946, you get a family allowance for your dependents. You'll have money to save!

With a yearly 30-day furlough with pay, you work eleven months and get paid for twelve. You get the best technical training in valuable trades and skills. Chances for advancement are excellent. On a 3-year enlistment you can choose your branch of service and overseas theater—and overseas service pays you 20% extra! If you enlist before October 6, 1946, upon discharge, you'll have the privileges of the GI Bill of Rights.

The educational privileges alone after a 3-year enlistment are worth more than \$5000 (48 months of college, trade or business school—free!). Where else could a young man save that much in 3 years?

Most important of all, after 20 years' service you can retire at half pay for the rest of your life—or on up to three-quarters pay after 30 years' service. To get that kind of retirement security in civilian life you'd have to buy an annuity costing you \$84 a month!

If you are aged 18 to 34, inclusive (17 with parents' consent), and physically and mentally fit, you can enlist now in the U.S. Regular Army for 1½, 2 or 3 years for one of the world's best jobs. Without obligation, get full details at your nearest U. S. Army Recruiting Station.

A Sickle To Grind

In a pamphlet by Harold Laski, chairman of the British Labor party's executive committee, the case against admitting Communists to party membership is stated in these words:

"Since it regards itself as the vanguard of the proletariat, the Communist party must permeate the ranks of the Labor party in order to dominate its life. Thus only can it prepare for that dictatorship which is the necessary method of consolidating its authority after the proletariat has hurled the bourgeoisie from power. It therefore works quite deliberately toward a one-party state."

Communists, Laski points out, hope to move into power after a "long period of economic ruin which would break the nation's faith in the institutions of parliamentary democracy."

This is not isolated testimony. It is the thought of a political scientist who has worked a lifetime with the British labor movement. It is, moreover, testimony with bearing on the position of the Communist party in the United States, which tends to follow in many of its social trends patterns already familiar in Britain. There is the same issue between Communists and moderates in the American labor movement, even though it is not yet understood here so clearly as Laski understands it in England.

Within the last few days, the Greater New York Central Trades and Labor Council ordered its three-quarters of a million A.F.L. members to boycott this year's May day parade, charging that the parade is run by Communists.

A C.I.O. union identified with that organization's "pink wing," the United Electrical Radio and Machine Workers, recently attacked Secretary of State Byrnes, Senators Vandenberg and Connally, Herbert Hoover, Edward R. Stettinius Jr. and, more broadly, the Truman administration. Its attack was based on resentment of a foreign policy alleged to be unfriendly to Russia. "The fight," reported The New York Times, is similar to that which raged within the C.I.O. during the period of the Nazi-Soviet pact when left-wing unions were accusing President Roosevelt of being an 'imperialist' and a 'war-monger' and were charging that 'monopolists' were leading this country into a war in support of Great Britain. When Hitler turned his troops against Russia, these unions became prime supporters of the Roosevelt policy."

In a recent convention of United Automobile Workers, no secret was made of the fact that the fundamental issue lay between the social and economic philosophies of Walter Reuther, an avowed socialist, and R. J. Thomas and George F. Addes, who were favored by the union's Communist minority. There have been numerous instances before, during and since the war when organized labor's leaders and spokesmen have grappled with and sometimes admitted they were grappling with the issue of Communist control of labor organizations.

The gravest indictment brought against the Roosevelt administration by its critics and the most damaging accusation against the Truman administration is that the United States government, in the name of broader rights for organized labor, has given the methodical sickle grinders of the left wing influence out of all proportion to their numbers and to their following among American working people.

There are times when one looks in vain for signs in the American labor movement that its moderate members comprehend the highness of the stakes for which the Communist minority is playing. The Communists are not interested in the principles of Samuel Gompers, who believed in a larger share for workers. They are hoping to establish the principles of Karl Marx, who believed in exclusion of all other rights—and in the practices of his followers who believe in economic and political dictatorship. Their method, as Harold Laski says, is to induce economic ruin as the requisite for breaking the established order.

They Can Bet On It

Congressional judgment on the question of drafting manpower for military service in peacetime is influenced strongly, all observers point out, by the fact this is an election year.

Congressmen fear that a vote in favor of national security might lose them votes among their displeased constituents. Most of them would welcome a chance to take themselves off the spot by voting for some complex measure no one could understand.

Six years ago, when the Selective Service Act was passed, congressmen went through the same throes of political agony. It was an election year. The United States was not at war. Yet, for prudence, a draft law, first in peacetime history, was under consideration.

The administration, though wanting the law, tried to dodge responsibility by letting the opposition propose it. The bills on which final action was taken in September were passed 47 to 25 in the Senate, 232-124 in the House. The minority, playing politics, voted heavily against selective service, a decision that was to lay a heavy curse on its prestige throughout the war. The majority, also playing politics but smarter politics in this case, eventually made political capital out of its support of the selective service proposal.

There is no cause to believe, in short, that the easy way to popularity with voters is always to insult their intelligence and dignity. There are enough voters who want a prudent policy of preparedness to back up members of Congress who vote to continue the draft until all America's military commitments have been satisfied.

Germany's Delayed Victories

Germany's military power is shattered, but German power to wage war is still manifest in millions of emaciated bodies and desperate minds in Europe.

The objectives of starvation was as important in

German plans as the blitz of English cities. It called for systematic elimination of millions of Europeans who had been judged by Hitler and his band of assassins to be unworthy of life. It called for the weakening of other nationalities, to the point where they could be slaves of Germany but could not be their own masters. In the National Socialist blueprint for a Germanized Europe starvation was as much a weapon as the airplane, the rocket, or the booby trap. Moreover, it was a weapon with long-range effect, something that would continue to work for Germany years after the close of the war's fighting phase. Its casualties would accumulate for a generation—malformed bodies, distorted ideas, lack of energy, hate, declining birth rates, rising death rates.

They would challenge German enemies to act without the stimulus of combat. If they failed—if starvation continued—Germany still could win World War II, because Germans were the best nourished population in Europe. That is why there is need for food relief in Europe. The war isn't over, not while the marks of German terror are still visible. The victories of famine, disease and desperation are belated, but they are victories for Hitlerism nevertheless.

The Stars Say

Tuesday, April 16

ACCORDING to the lunar aspects between major planets, the pleasant and prosperous relations of this day may depend upon the degree of good will, amiability and prudence exercised in the behavior and general attitude toward perplexing situations.

There may be an indomitable impulse to engage in short, turbulent or argumentative words and deeds, or possibly toward an inclination to excesses, indulgence or extravagance. All of this may work against the favorable influence of those whose good will and substantial support are essential to happy results.

If It Is Your Birthday

Those whose birthday it is have a lucrative year according to the manner in which they meet certain perplexing or trying situations. A tendency to harsh, abrupt and generally extravagant conduct, with tumultuous feelings and emotional urges may stand in the way of offers of solid support of those in influential places, whose friendship is significant. It is a time to cultivate these and to plant seeds of kindness rather than arbitrary attitudes.

A child born on this day may stand in the way of its own progress and happiness in life by its impulsive, careless or wayward tendencies. It should be schooled.

GUARDING YOUR HEALTH

Modern Ways To Help Facial Neuralgia

BY HERMAN N. BUNDESEN, M.D.

ONE of the most merciful services ever rendered by medical science was its conquest of the douloureux or facial neuralgia because of all the ills that flesh is heir to, this can be one of the most agonizingly painful.

Most frequent in persons between 40 and 60, it causes sudden attacks of violent pain in the face. It may be so severe that victims scream for relief, and frequent that they are in almost constant torture.

In others, the attacks are milder, coming only seldom and lasting but a short time. In either case the attacks may be brought on by a chance touch of the face, or by such movements as are involved in eating or talking.

The douloureux has been known for centuries, though even today its exact cause remains a mystery. Nonetheless, modern medicine has found a way to relieve it. In 1890, an operation for abolishing the fierce pain of this disorder was devised—an operation, which has since been so perfected and refined that it stands as a monument to the skill of modern surgery.

Cutting Nerve

This operation consists in cutting a part of the trigeminal nerve in the face. It is, of course, a highly delicate and skill-requiring operation. Extreme care must be taken to cut only one part of the nerve. Should that part which serves the muscles be severed, parts of the face will be paralyzed and facial muscles waste away.

For these reasons, people with the milder type of the douloureux will wish for less drastic forms of relief and these are available in the form of aspirin and other pain-killing preparations. It should be noted, however, that such things give only temporary ease from pain.

Freezing the painful area with ethyl chloride spray is another frequently used temporary measure. According to Dr. Wilfred Harris of London, application of heat may only make bad matters worse.

Alcohol Injections

Sometimes, instead of resorting to operations, doctors prefer to inject the branches of the nerve with alcohol. This will often get rid of the pain, but the procedure is something which must be handled

only by an expert and gives only temporary relief.

It has been suggested that at times the douloureux may be relieved by giving large injections of vitamin B-complex. However, in many instances this method of treatment has not been found successful.

Of course, pain in the face may be produced by many disorders other than trigeminal neuralgia. There may be some inflammation of the muscles, or the difficulty may be due to decayed teeth or possibly to what are known as impacted teeth, which means teeth that have not come through the gums.

Hence, whenever pain in the face develops a careful study by a specialist in disorders of the nervous system would appear advisable. X-rays of the teeth should be taken to help in making a diagnosis.

If found that the pain is due to trigeminal neuralgia and is not severe, treatment with medicines may be attempted. If the pain is more severe, alcohol injections might prove of value in the most cases, operation may be carried out.

Letters to Dr. Bundesen should be addressed in care of 235 E. 45th st., New York City.

MACKENZIE'S Column

BY DEWITT MACKENZIE
AP Foreign Affairs Analyst

Coincident with the indication that the United States and Britain will support a full hearing before the U. N. Security Council of Franco's charges against the Franco regime, there has been a remarkable development in Spain—two of Madrid's three morning newspapers yesterday published a belated announcement that America, England and France advised Spaniards to elect the generalissimo.

To get the full force of such publication, one must know that the Spanish press is absolutely under the thumb of the Franco dictatorship as I observed when in Spain recently.

It is my guess that this is the first time any Spanish newspaper has been permitted to publish anything even approaching such a damning statement regarding the chief of state.

And what is the meaning of this strange lifting of the censorship for a brief moment? Well, the broad significance would seem to be clear. The generalissimo is getting set to meet the assault. Specifically, however, there is nothing to guide us as to whether it is a purely defensive—possibly conciliatory—action.

Also highly interesting, though far less startling, is the fact that the Spanish press yesterday printed the text of Poland's charge before the Security Council, to the effect that Spain is harboring German scientists who are working on destructive instruments of war.

This accusation is calculated to wear out the claim that the Franco regime is a threat to international peace. Russia and France are expected to support Poland in this thesis.

Thus far the United States and Britain, while taking the strong measure of advising the Spanish people to throw out the Franco government, have maintained the position that the generalissimo was a domestic problem.

The corollary to this would seem to be that Uncle Sam and John Bull, although they would be delighted to see Franco dispossessed, have no disposition to try to force Spain to accept another government selected by foreign nations but on the contrary hope to see the change effected by a full expression of public opinion at the polls.

Speaking of plebiscites, early this year when I was in Spain there were signs that Franco and Don Juan, pretender to the throne, might reach an agreement for the return of the monarchy and that the question would be submitted to the people. However, the negotiations struck a snag, presumably because Franco was trying to safeguard personal interests to which the price didn't subscribe.

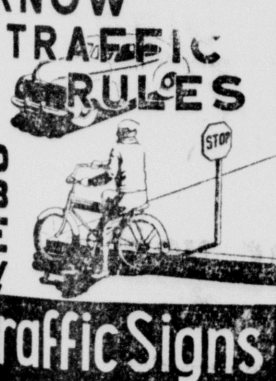

As I reported in this column at the time, the indications were that the generalissimo saw the writing on the wall for his regime and was ready to give way to a monarchy, provided he could save face in the operation. He wasn't prepared to take a rap in the teeth.

It's hard to see how Franco can expect to hang on indefinitely with that if not all of the United Nations against him. Sooner or later he must permit the Spanish people to express their will. So it wouldn't be strange if he were maneuvering into position for a plebiscite now, and that might be the explanation of the strange announcement in the Madrid press that the three Western Allies advise the Spanish people to oust him.

Winners Series
National Safety Poster Contest

Ignorance of traffic regulations and failure to keep the bicycle in good repair were responsible for the greatest number of bicycle accidents and deaths in 1944. A. P. Morris, manager of the Columbiana County Motor Club, said today in announcing distribution of April traffic safety units and posters to schools in this city.

Of the 400 persons killed in accidents involving both motor vehicles and bicycles 270 occurred in cities and towns, and 130 in rural areas and 180 of the 270 killed in cities and towns were of the 5-14 year age-group, indicating where the biggest problem lies, Morris explained.

The same problem exists in the rural communities where 70 of the 114 killed (over half) are in the same 5-14 year age-group. Non-fatal accidents show the same trend, with 11,000 of the 18,000 persons hurt being in the 5-14 year age group.

These Interesting HIGHLIGHTS of OHIO EDISON'S Record of BUSINESS for the YEAR 1945

IN 1945 Ohio Edison made rate reductions saving consumers \$660,800 a year. Of this, \$475,050 applied to commercial users, \$160,800 to residential users, \$24,950 to other users.

AS USE goes up, price comes down. Last year our residential customers used, on the average, twice as much electricity as they did 9 years ago. Average price paid was 2.82c per kwh—about 1/3 less than 9 years ago, and 17 1/2% below the average for the nation.

RESIDENTIAL use of electricity, including farms, reached a new high in 1945. Reasons: (1) more people per dwelling; (2) greater realization of value and economy of electricity in alleviating farm and home help shortages.

TAXES INCREASED \$532,344, and totaled \$7,178,869. Business-managed utilities and their customers pay heavy Federal, state and municipal taxes. Government-owned power systems pay no Federal, and often little or no state or municipal taxes.

Sales:
Sales of electricity for all purposes in 1945 were below those of 1944, due largely to the recession in industrial activity that followed V-E Day.

Sales to industries were down about 5%; sales to commercial users were up 4%; residential sales were up 7%.

Supply:

The electric requirements of all war plants, as well as all civilian needs, were met. Even at the peak of war demand, there was no shortage of electricity in the area served by the Ohio Edison system. The only curtailment of service was during the government-imposed "brown-out" from February 1 to May 8, which restricted electricity for signs and outdoor lighting. The Company cooperated actively with the Government in this conservation program.

Costs:

Prices for electricity continued their downward trend in 1945. Residential and farm customers paid an average of 2.82c a kilowatt-hour. The average price for commercial light and power service was 16% less than in 1935.

These reduced prices for electricity have occurred in the face of rising prices for practically all other commodities and services. Electricity is still one of the smallest items of

MACKENZIE'S Column

BY DEWITT MACKENZIE
AP Foreign Affairs Analyst

Coincident with the indication that the United States and Britain will support a full hearing before the U. N. Security Council of the Franco charges against the Franco regime, there has been a remarkable development in Spain—two of Madrid's three morning newspapers yesterday published a belated announcement that America, England and France advised Spaniards to get the generalissimo.

To get the full force of such publication, one must know that the Spanish press is absolutely under the thumb of the Franco dictatorship as I observed when in Spain recently.

It's my guess that this is the first time any Spanish newspaper has been permitted to publish anything even approaching such a damning statement regarding the chief of state.

And what is the meaning of this strange lifting of the censorship for a brief moment? Well, the broad significance would seem to be clear: The generalissimo is getting to meet the assault.

Specifically, however, there is nothing to guide us as to whether it is a purely defensive—possibly conciliatory—action.

Also highly interesting, though less startling, is the fact that the Spanish press yesterday printed the text of Poland's charge before the Security Council, to the effect that Spain is harboring German scientists who are working on destructive instruments of war.

This accusation is calculated to stir out the claim that the Franco regime is a threat to international peace. Russia and France are expected to support Poland in this case.

Thus far the United States and Britain, while taking the strong measure of advising the Spanish people to throw out the Franco government, have maintained the position that the generalissimo was a domestic problem.

The corollary to this would seem to be that Uncle Sam and John Bull, although they would be delighted to see Franco dispossessed, have no disposition to try to force Spain to accept another government selected by foreign nations.

On the contrary, they hope to see the change effected by a full expression of public opinion at the polls.

Speaking of plebiscites, early this year when I was in Spain there were signs that Franco and Don Juan, pretender to the throne, might reach an agreement for the return of the monarchy and that the question would be submitted to the people.

However, the negotiations struck a snag, presumably because Franco was trying to safeguard personal interests to which the people didn't subscribe.

As I reported in this column at the time, the indications were that the generalissimo saw the writing on the wall for his regime and was ready to give way to a monarchy, provided he could save face in the operation. He wasn't prepared to take a rap in the teeth.

It's hard to see how Franco can expect to hang on indefinitely with that if not all of the United Nations against him. Sooner or later he must permit the Spanish people to express their will. So it wouldn't be strange if he were maneuvering into position for a plebiscite now, and that might be the explanation of the strange announcement in the Madrid press that the three Western Allies advise the Spanish people to oust him.

These reduced prices for electricity have occurred in the face of rising prices for practically all other commodities and services. Electricity is still one of the smallest items of

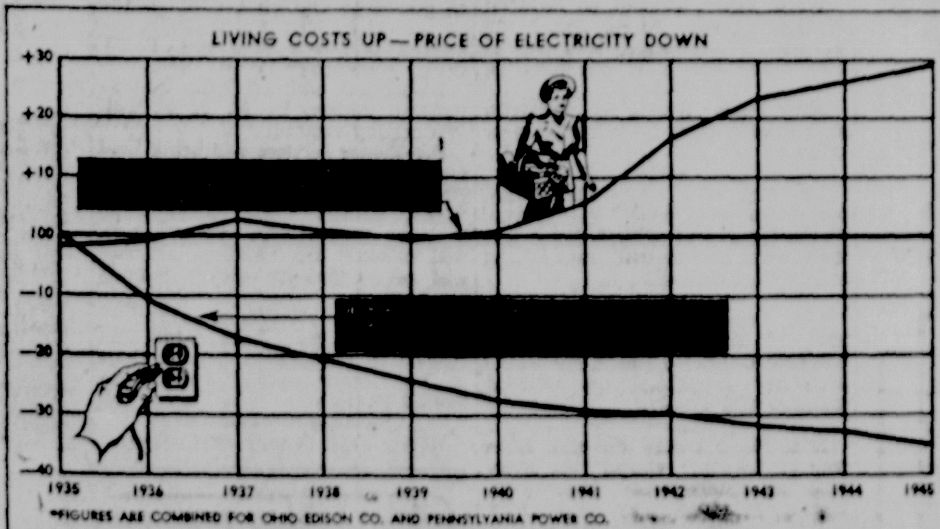

expense in the average family budget, less than 1 1/2%. Meanwhile, since the outbreak of World War II, living costs have risen 29%, according to the Bureau of Labor Statistics, U. S. Department of Labor.

Future Uses:

The war has given great impetus to new applications for electricity. For home use there will be on the market in the near future television sets, circular fluorescent lamps, home freezers, improved room coolers and "precipitron" units for cleansing the air of dirt, dust and tobacco smoke. In the commercial field, fluorescent lighting and air conditioning will become increasingly popular. In industry electricity can be depended upon to further improve manufacturing processes. Curing of rubber by high frequency heating is one such example. On the farm electricity will find new uses, even to aiding in the utilization of waste by-products.

Property Additions:

During the war the extension of electric service facilities was limited due to the need for conserving critical materials. Orders have since been placed for additional generating equipment for the Ohio Edison system, and as materials and manpower again become plentiful, the Company plans to make the benefits of electric service available to other homes and farms not now served.

Miss York Married To Lt. Bidlack

Before an altar banked with palms, white lilies and snapdragons, Miss Geraldine York, daughter of Mr. and Mrs. Melvin York, of Georgetown road, and Lieut. (jg) Rollin Bidlack, son of Mr. and Mrs. Forrest Bidlack of Parkman, were married at 12:30 p. m. Sunday at the First Methodist church.

The double ring ceremony was performed by Dr. James Alexander Scott.

The bride, escorted to the altar and given in marriage by her father, was lovely in a Grecian afternoon dress of shell pink gabardine and a pink feathered hat and veil. She carried her mother's white Bible, topped with white gardenias and white daisies from which were short ribbon streamers and Stephanotis.

Sister Is Attendant

Her sister, Mrs. Donald Ream of Columbus, as matron of honor, was her only attendant. She wore a moss green dressmaker suit of gabardine and a rose colored hat.

Edward Heinold of Warren was best man.

Vows were spoken by candlelight in the presence of the immediate families and close friends of the bride and groom.

The nuptial music and traditional marches were played by Homer Taylor. The bridegroom, "O Perfect Love," was played softly during the ceremony.

Afterwards the families were entertained at a dinner at the Knotty Pine room, Lape hotel. White Princess tapers in crystal candelabra were lighted on the table, which was centered with a tiered cake and decorated with white flowers.

Later the couple departed for a honeymoon.

The bride is a senior in the school of nursing at Ohio State University. Lieut. Bidlack has a degree in mechanical engineering from Ohio State University.

Couple To Observe 50th Anniversary On Easter

Mr. and Mrs. Henry F. Lippert of the Goshen road, who will celebrate their 50th wedding anniversary Easter Sunday, will keep open house in the afternoon and evening to welcome relatives and friends.

At 11 a. m., a solemn high mass will be sung in their honor in St. Paul's Catholic church.

Mary Ida Hickey and Henry F. Lippert were united in marriage

April 21, 1896, in St. Paul's Catholic church by the late Rev. Fr. Francis Sennar.

They have spent their married life in Salem and for 32 years have lived in their present home.

Mr. and Mrs. Lippert are in good health and are carrying on their farm work.

The couple have one son, William Lippert of Salem, and three daughters, Lucille and Esther at home, and Mrs. Gertrude Harnicher of Warren.

Coan-Tolp Marriage Solemnized Saturday

Miss Harriet Coan of Farmingdale, N. Y., and Charles Tolp of the Lisbon rd., were united in marriage at 5:30 p. m. Saturday by Justice of the Peace T. R. Whinnery at his home on Washington ave.

The double ring ceremony was observed.

The attendants were Mrs. Joseph Hilditch, sister of the groom, and Ward Zeller.

The bride was costumed in a poudre blue suit with navy blue accessories and wore a gardenia corsage. Mrs. Hilditch wore a checked suit with a corsage of tea roses.

After the ceremony a wedding dinner was served at the Wee Farm, Lisbon rd.

The reception was held at the home of the groom's parents, Mr. and Mrs. Joseph Tolp, Lisbon rd., for the families, Mrs. Minnie Coan of Farmingdale, mother of the bride, was among the guests.

Mrs. Tolp is a graduate of Farmingdale High school and until recently was employed as bookkeeper in the Gertz department store, Farmingdale.

Miss York Married To Lt. Bidlack

Before an altar banked with palms, white lilies and snapdragons, Miss Geraldine York, daughter of Mr. and Mrs. Melvin York, of Georgetown road, and Lieut. (jg) Rollin Bidlack, son of Mr. and Mrs. Forrest Bidlack of Parkman, were married at 12:30 p. m. Sunday at the First Methodist church.

The double ring ceremony was performed by Dr. James Alexander Scott.

The bride, escorted to the altar and given in marriage by her father, was lovely in a Grecian afternoon dress of shell pink gabardine and a pink feathered hat and veil. She carried her mother's white Bible, topped with white gardenias and white daisies from which were short ribbon streamers and stephanotis.

Sister Is Attendant

Her sister, Mrs. Donald Ream of Columbus, as matron of honor, was her only attendant. She wore a moss green dressmaker suit of gabardine and a rose colored hat.

Edward Heinold of Warren was best man.

Vows were spoken by candlelight in the presence of the immediate families and close friends of the bride and groom.

The nuptial music and traditional marches were played by Homer Taylor. The bridegroom, "O Perfect Love," was played softly during the ceremony.

Afterwards the families were entertained at a dinner at the Knotty Pine room, Lake hotel. White Prince tapers in crystal candelabra were lighted on the table, which was centered with a tiered cake and placed with white flowers.

Later the couple departed for a honeymoon.

The bride is a senior in the school of nursing at Ohio State University. Lieut. Bidlack has a degree in mechanical engineering from Ohio State university.

Silver Anniversary Party Held Sunday

Celebrating their 25th wedding anniversary, Mr. and Mrs. James A. Rhodes of R. D. 2, Salem, entertained 50 guests at a dinner Sunday in the V. F. W. hall, N. Broadway. There were approximately the same number for supper.

In the company were the attendants at the wedding, Miss Marie Jaeger, bridemaid, and Arthur Mone, best man, both of Cleveland.

In the afternoon the couple kept open house at the hall and received a large company of their friends. The guests were from Salem, Cleveland and Greenford.

Miss Clara Jeanette Mone of Cleveland and James Anderson Rhodes of Greenford were married April 14, 1921, at the Holy Trinity Catholic church, Cleveland, by Rev. Fr. Sutter.

They have one son, James A. Rhodes, Jr.

The couple have always lived in this vicinity. He is an electrician, employed by the Mullins Mfg. Corp.

Husbands Entertained By B. & M. C. Club

Members of the B. & M. C. club entertained their husbands at a covered dinner Saturday evening in the dining room of the Bunker Hill Methodist church. Places were arranged for 15 guests.

An informal social time was enjoyed.

Those in attendance were from Salem, North Benton and Beloit.

The next club meeting is set for May 16 at the home of Mrs. Clyde Elder, E. Third st.

Fete Grandson at Dinner

For the pleasure of their grandson, Robert L. Nist of Canton, who was recently discharged from the service, Mr. and Mrs. Lewis Ritchey of New Garden entertained a group of friends Sunday afternoon at their home. A buffet lunch was served.

Among the guests were Mrs. Florence Bush, Miss Martha Bush and Mr. and Mrs. Joseph Bush and daughter, Linda, of Salem. Some of the other guests were from Canton and Santa Monica, Calif.

Mr. and Mrs. Lippert

Couple To Observe 50th Anniversary On Easter

Mr. and Mrs. Henry F. Lippert of the Goshen road, who will celebrate their 50th wedding anniversary Easter Sunday, will keep open house in the afternoon and evening to welcome relatives and friends.

At 11 a. m., a solemn high mass will be sung in their honor in St. Paul's Catholic church.

Mary Ida Hickey and Henry F. Lippert were united in marriage

April 21, 1896, in St. Paul's Catholic church by the late Rev. Fr. Francis Senner.

They have spent their married life in Salem and for 32 years have lived in their present home.

Mr. and Mrs. Lippert are in good health and are carrying on their farm work.

The couple have one son, William Lippert of Salem, and three daughters, Lucille and Esther at home, and Mrs. Gertrude Harnicher of Warren.

Coan-Tolp Marriage

Solemnized Saturday

Miss Harriet Coan of Farmingdale, N. Y., and Charles Tolp of the Lisbon rd., were united in marriage at 3:30 p. m. Saturday by Justice of the Peace T. R. Whinnery at his home on Washington ave.

The double ring ceremony was observed.

The attendants were Mrs. Joseph Hilditch, sister of the groom, and Ward Zeller.

The bride was costumed in a poudre blue suit with navy blue accessories and wore a gardenia corsage. Mrs. Hilditch wore a checked suit with a corsage of tea roses.

After the ceremony a wedding dinner was served at the Wee Farm, Lisbon rd.

The reception was held at the home of the groom's parents, Mr. and Mrs. Joseph Tolp, Lisbon rd. for the families, Mrs. Minnie Coan of Farmingdale, mother of the bride, was among the guests.

Mrs. Tolp is a graduate of Farmingdale High school and until recently was employed as bookkeeper in the Gertz department store, Farmingdale.

The groom, a graduate of Salem High school was in the armed forces four and one half years, 37 months of which were spent overseas. A staff sergeant, he was crew chief mechanic with the 12th and 15th Air forces.

Endres-Gross Offering Wide Flower Assortment

Easter is next Sunday. Never was there an Easter that will mean more to the entire population. The churches will be filled to overflowing. Never was there an Easter when flowers were more plentiful.

Fresh cut flowers direct from the greenhouse will give much longer pleasure than those shipped in. That's one very good reason why Endres-Gross, local florists, will be swamped with orders as they have been for many years past.

Those who order early will have the advantage of the choice of kind and variety and certainly will have their every desire fully satisfied, and as in the past, every effort will be made to do all they can for the last minute rush business.

Telephone service is available for flower orders anywhere in the United States.

Transplant Shrubbery In Spring, Nurserymen Urge

There is no excuse in not receiving the full advantage of early spring rains in transplanting nursery stock. The cool damp weather and cloudy days make ideal conditions for transplanting any kind of shade or fruit tree, evergreens or ornamental bush.

Fresh dug nursery stock is very important, the shock of transplanting is so much less.

Here in Salem, in fact most the entire eastern part of Ohio, has for years depended to a large extent upon the Cope Bros. and Fultz, Inc., Nursery on Depot road. Here nursery stock is dug fresh as ordered and guaranteed.

LEETONIA

The financial committee has recommended to council that the request of the waterworks superintendent, the marshal and the street commissioner for an increase in salaries be granted.

A raise of \$10 per month was granted.

The waterworks superintendent will now receive \$190 per month and the street commissioner \$180.

At the request of the State Conservation department, council granted a renewal of a three-year easement of the Cherry Valley dam which will last until April 28, 1949.

A motion was passed following the stocking of this pond in the near future at the request of the Leetonia Sportsmen's association.

Garfield Grangers Plan Special Program April 24

When members of Garfield grange met Wednesday evening Ellis Steer was appointed gatekeeper to fill the chair of the late Albert Stanley.

A young people's party will be held May 1 and at the Mahoning county project meeting May 8 Garfield grange will have charge of the business. Ellsworth will present the program and Dublin the degree work.

The Subordinate and Juvenile granges will combine a Mothers day and an Arbor day program at the next meeting, April 24.

The members have finished placing a new ceiling in the hall.

The program Wednesday evening consisted of Easter recitations, Janet Davis and Janie Buttermore; song, Mrs. Frank Mather; piano duet, Janet Stanley and Janie Buttermore; exercise, Juveniles; readings, "Easter Introduction," Mrs. William Greenstein; Easter reading, Mrs. Allen Stanley, and an Easter Bonnet parade by the men.

Flees 'Shack'

Because, she said, the "dream house" she expected when she came to America to join her ex-G. I. husband turned out to be a "shack," 16-year-old Mrs. Evelyn Caroline Poston ran away to New York. She says she doesn't want to rejoin her husband, Warren Harding Poston, of Salisbury, N. C., whom she married in Crickwood, England, last October and rejoined in the U. S. on March 31.

Now...no wheat used in beer or ale

And wheat alone can solve the problem of feeding the world's hungry

★

Actually wheat has never been a large item in the brewing process—only $\frac{8}{10,000}$ of the entire U. S. wheat crop was used in 1945.

In accordance with United States Government policy, the brewing industry has used no wheat whatever since March 1, 1946.

OTHER MATERIALS CUT 30%

The other grains used have been reduced by 30%—that is, to 70% of the 1945 amount.

Wheat alone can solve the problem of feeding the hungry. The grains to which the industry is now restricted, are of a variety and grade not normally consumed by the people of the world as food.

LESS BEER AND ALE

Altogether, the brewing industry is using 30% less materials than in 1945. This results in a proportionately lower production. But since the current demand for beer and ale is about 25% greater than a year ago, the real shortage is nearer 50%.

Consequently, your dealer will not be able to supply you with all the beer and ale you would like. We know you will understand the reason for this.

This statement tells in clear, simple terms what each of us individually can do to help during the emergency.

What the President's Famine Emergency Committee asks us all to do

1. Save and share wheat and fat products . . . Go light on all foods that take wheat, fats and oils—save breads, macaroni, cakes, cookies, pastries and deep-fried foods. Use drippings for pan-frying. Save salad oil—use boiled dressings.
2. Buy and serve more plentiful foods . . . Balance diets with the more plentiful foods, such as potatoes, fresh fruits and vegetables.
3. Waste NO food . . . Dress up today's leftovers for tomorrow. Make every crust count with melba toast, crumb-toppings, bread puddings and stuffings. Take no more than you can eat. Clean your plate. Turn in unusable fat salvage promptly.

Endres-Gross Offering
Wide Flower Assortment

Easter is next Sunday. Never was there an Easter that will mean more to the entire population. The churches will be filled to overflowing. Never was there an Easter when flowers were more plentiful.

Fresh cut flowers direct from the greenhouse will give much longer pleasure than those shipped in. That's one very good reason why Endres-Gross, local florists, will be swamped with orders as they have been for many years past.

Those who order early will have the advantage of the choice of kind and variety and certainly will have their every desire fully satisfied, and as in the past, every effort will be made to do all they can for the last minute rush business.

Telephone service is available for flower orders anywhere in the United States.

Transplant Shrubbery In
Spring, Nurserymen Urge

There is no excuse in not receiving the full advantage of early spring rains in transplanting nursery stock. The cool damp weather and cloudy days make ideal conditions for transplanting any kind of shade or fruit tree, evergreens or ornamental bush.

Fresh dug nursery stock is very important, the shock of transplanting is so much less.

Here in Salem, in fact most the entire eastern part of Ohio, has for years depended to a large extent upon the Cope Bros. and Fultz, Inc., Nursery on Depot road. Here nursery stock is dug fresh as ordered and guaranteed.

Major League Managers Have Their Says As Season Opens

By JOE REICHLER
NEW YORK, April 15.—Six American league managers think their clubs have a chance to win the flag, but National league pilots are in unanimous agreement that the star-studded St. Louis Cardinals is "the team to beat," according to their pre-opening day comments for the Associated Press.

Billy Southworth of the Boston Braves, and former Redbird skipper, flatly predicted the Cardinals would win the National league pennant. St. Louis' Eddie Dyer says his team will have a good chance to win. Even Connie Mack, manager of the Philadelphia Athletics in the American league, picked the Cards to cop the bunting.

In sharp contrast, six of the American league skipper, Steve O'Neill of Detroit, Joe Cronin, Boston; Ossie Bluege, Washington; Joe McCarthy, New York; Lou Boudreau, Cleveland, and Luke Sewell, St. Louis, declared they fully expect to see their teams in the thick of the pennant fight.

None of the six ventured to name his team as the number one outfit, but neither did they yield an inch to other clubs. Perhaps the most enthusiastic statements were made by O'Neill of the World Champion Tigers and Sewell of the 1944 pennant winning Browns.

"As defending champion we certainly must rate as the team to beat in the American league," O'Neill said. "We have good pitching, good catching, a strong outfield and the infield will be okay. We expect the greatest competition from New York, Boston and Cleveland, with Washington as the dark horse."

Sewell said: "Our club this year is 40 percent better than our '44 champions and is the best team I have had since I took charge in 1941. I'm satisfied the Browns will be in the battle for the pennant."

All agreed the 1946 season will be one of the most interesting in the history of the game, chiefly because of pre-war stars who are expected to strengthen practically every club.

Comments from other managers included: Eddie Dyer, St. Louis Cardinals—

"We have a strong team and should be in the thick of the race. How great we are to become depends chiefly on our catching, Johnny Beazley's arm and George Kuroski, who got a late training start. I will say that if we are no more than five games from first place by July 4 we will have a good chance to win."

Charlie Grimm, Chicago Cubs—"We'll be right in the thick of it, but we'll have to pitch all the way. From what I hear every club has been strengthened and we'll have to fear Brooklyn, Boston and even the Phils almost as much as the Cardinals."

Leo Durocher, Brooklyn Dodgers—"It's going to be a close race. I expect the Cubs and my own team to give the Cards a run for their money."

Mel Ott, New York Giants—"We are definitely aiming for first division and expect to land there. Walker Cooper should make a tremendous difference in the team. We have a hard hitting outfield and a left-handed pitcher, we should give any team trouble."

Frank Frisch, Pirates—"I think the Pirates will be stronger than they were last season when they just managed to finish in the first division. Our club is in fine condition and I am pleased with recruits Ralph Kiner in centerfield and Billy Cox at short."

Billy Southworth, Boston Braves—"My club will be a hustling club. As far as speed, it will compare with others in the league. With a little help which we're trying to get, we'll be able to give the majority of the clubs a battle. The Cubs should provide the Cards the best battle."

Bill McKechnie, Cincinnati Reds—"Give me a couple of outfielders who can sock the ball and we'll deal them all plenty of trouble. We're going to be a lot better than a good many people think we are."

Ben Chapman, Philadelphia Phils—"We definitely won't finish in last place and may even hit the first division if my infield holds up. I rate the Cubs, Dodgers and Giants next to the Cards."

Ossie Bluege, Washington Senators—"We're making no concession to anybody. We've got enough power at the plate for a change and we'll be in the race if our pitching is as good as it looks on paper."

Joe McCarthy, New York Yankees—"The team will be just about the same as the 1941-43 championship outfit with the exception of the pitching staff. If some of the young hurlers come through we may go on to win."

Lou Boudreau, Cleveland Indians—"We're shooting for the pennant and we'll have a hustling team that'll give all the clubs a fight. We've got good pitching with Bob Feller, Allie Reynolds, Steve Grodzinski, Red Emmer and Don Black. The infield is sound and the outfield is speedy. George Case should prove a big help to our team."

Joe Cronin, Boston Red Sox—"With all the veterans back every club will be better. I figure we will be closely bunched. It will be hard to make a prediction until about the end of June."

Mule Haas, Chicago White Sox (acting manager)—"We're definitely better than last year, but so are most of the other clubs. It will be foolish for me to predict the White Sox will finish better than last season when we wound up sixth."

Connie Mack, Philadelphia Athletics—"I don't know where we'll finish but we're much improved." The Grand Old Man of the game repeated his early spring training prediction that the Yankees and Cards will meet in the World Series.

Feller Would Like To Repeat Tomorrow

IS ITCHING FOR A NO-HITTER IN RETURN TO LOOP

Some of Same Combine That Played Behind Him In 1940 Still Around

CLEVELAND, April 15.—If baseball repeats itself in six-year cycles it will be quite all right with Bob Feller, Cleveland Indians ace who will take the mound against the White Sox in Chicago tomorrow in the opening game of the 1946 American league season.

Rapid Robert hopes to celebrate the sixth anniversary of a record

pitching feat with a repeat performance of his no-hit shutout of the Sox in 1940.

The same side—Comiskey park—and some familiar faces will greet Feller tomorrow as he attempts to duplicate that 1 to 0 opening-day whitewashing.

Two Infielders Back

Manager Lou Boudreau and Ray Mack, the Indians' clever keystone combination, played with the Tribe in 1940 as Feller set a new American league record, but Hal Trosky, ex-Indian first baseman, will be on the Chicago side of the diamond tomorrow.

The Indians ended their exhibition season with a 14-14 record yesterday as the New York Giants teed off for six runs in the final two innings to take a 7 to 5 triumph.

Red Hayworth Latest To Join Mexicans

MEXICO CITY, April 15.—Myron (Red) Hayworth, former St. Louis Browns catcher, is the latest U.S. player to sign with the Mexican league.

The husky, 31-year-old receiver, who was sent down to Toledo of the American Association this year after playing with the Browns the last two seasons, signed a three-year contract with Mexican league president Jorge Pasquel last night. Pasquel said Hayworth will be assigned to the Torreón team.

Sport Scribes See Yanks, Cardinals In 1946 World Series

(By Associated Press)
NEW YORK, April 15.—The St. Louis Cardinals and the New York Yankees should meet in the 1946 World Series according to the way the nation's baseball writers size up the major league pennant races.

Of the 119 writers participating in the annual Associated Press poll on the flag chases, 115 picked the Cards to win the National league championship while four named the Chicago Cubs to repeat.

The Yanks were selected to win the American league race by 76 of the writers while 25 believed Detroit would cop the flag again. Sixteen looked for Boston's betting Sox to come through and two picked the Cleveland Indians.

Buffalo Bisons Win Hockey Cup

Take Title Fray From Slipping Barons In Seventh Game

(By Associated Press)
BUFFALO, N. Y., April 15.—The American Hockey league Calder Cup was back in the possession of the Buffalo Bisons today following the team's 5-2 triumph over Cleveland's Barons in the seventh game of a hard-fought playoff series.

The Bisons regained the championship, which they had relinquished to the Barons a year ago, after an uphill fight. Their victory last night was their third consecutive win over the Clevelanders, making the seven-game playoff score 4-3 in favor of the Buffalo team.

It was the Bisons' third league championship in four seasons and enabled them to tie the Barons' league record of three tie wins.

Buffalo's players will split into 18 shares the \$14,400 won in the final and preliminary playoffs. The Barons' booty is \$11,000—\$5,400 from the final series and \$5,600 each from two preliminary series.

Hiram College Football Returns After 3 Years

HIRAM, April 15.—A six-game football season is scheduled next fall for Hiram college's Terriers who abandoned the gridiron sport three years ago. TRUMAN TO THROW IN FIRST PITCH

Will Keep Up 46-Year-Old Tradition: Brings Party of 32

(By Associated Press)
WASHINGTON, April 15.—President Truman and the national capital join hands tomorrow with baseball fans across the country to usher in the 1946 season.

Mr. Truman will take a south-paw stance in the Presidential box between home plate and first base shortly before 3 p. m. (EST) and throw out the first ball before an expected crowd of 30,000.

By formally opening what sports writers predict will be a record-smashing season—the first since wartime—Mr. Truman will keep alive a tradition of every president attending opening-day baseball since shortly after the turn of the century.

Mr. Truman personally will set a couple of records—(1) as the first Presidential southpaw; (2) by taking a party of 32 to see the game.

'Name' Teams Come Up In Bowling Tries

(By Associated Press)
BUFFALO, N. Y., April 15.—Two "name" teams and the 1942 singles champion will bid for leading positions tonight in the American Bowling Congress' World championship tournament.

The Coca Cola Bottling company five of Terre Haute, Ind., boasting a 994 home average, are scheduled to open the evening's action on the 8:30 p. m. shift, while the Skang and Bill team of Cleveland, bolstered by John Stanley, 1942 singles champion, is slated to appear on the 10:30 p. m. shift.

Stanley won the singles crown at Columbus, Ohio, during the 1942 tournament with a 756 total on games of 258, 253, and 245.

In yesterday's action, two unheralded teams moved into the doubles standings, Ed Eggerding and Nick Zappa of Norwood, Ohio, fired a 1351 for second place, and the Frank Spencer-Charles Moore duo, of Chicago registered a 1303 gross for third position.

Lady Holds Top Hand For Kentucky Derby

LOUISVILLE, Ky.—It may be the Maine Chance farm against the field when the horses parade to the post May 4 for the 72nd running of the Kentucky Derby.

At any rate, four of Mrs. Elizabeth Graham's six nominations have been established among the early favorites in this year's run for the Roses and the \$100,000 added money.

Headed by Knockdown, the Graham favorites include Star Pilot, Lord Boswell and Colony Boy. Two others, War Pippin and Perfect Bahram, complete the six colts nominated by Maine Chance.

Little Glamor in Mexican Baseball

Barbed wire separates players and fans in Mexico City ball park, one of the clubs in the new Mexican league which has lured U. S. players south of the border. Union Laguna players are pictured sitting on the dugout, with the bleacher section behind.

Softball Managers Hold First Meeting Tomorrow

All softball teams from Salem and vicinity interested in fielding a team in the city Class A league this season are requested to have a representative at a managers' meeting at 7:30 p. m. Tuesday in the Memorial building.

Plans for the 1946 campaign will be mapped out and a discussion of ground and eligibility rules will be held.

Call Althouse Practice

Players interested in trying out for the Althouse Motor Co. baseball team, which will play Sunday games at Lake Placencia park this year, are asked to report to the park diamond at 5:30 p. m. Tuesday and Thursday of this week. Joe Schwartzoff of North Georgetown will manage the team.

LESS EXPENSIVE HOMES IS GOAL

(By Associated Press)
WASHINGTON, April 15.—Housing Boss Wilson W. Wyatt is drafting further construction controls designed to put more new homes on the market bearing price tags of \$6,000 or less.

Officials in a position to know said today the national housing administrator expects to establish area quotas which will require that a certain percentage of homes in each region be built to sell at less than \$10,000, the ceiling now generally in effect.

These officials, who withheld use of their names, said the quotas will be based on building costs in each area.

Under a preliminary plan subject to revision, the system would work something like this:

If NHA found that one-third of all new homes authorized in a certain area were scheduled to sell for \$6,000 or under, it might rule that in the future 50 per cent of all authorizations should be in that price category.

If 20 per cent were being built to sell at from \$6,000 to \$7,500, this might be boosted to 30 per cent, and so on.

The aim will be to build as many homes for as much less than \$10,000 as possible, but in each area some probably will continue to sell at the ceiling.

In areas where building costs are high, the minimum sale range might have to be, say \$8,500 and under. But the system would work the same way.

Wyatt has said several times that despite the \$10,000 ceiling he intends to see that most new dwellings sell for no more than \$6,000.

Farmers Are Asked To Delay Planting of Corn

COLUMBUS, April 15.—D. F. Beard, extension agronomist at Ohio State university, says Ohio farmers should delay planting their 1941 corn crop until the danger of cold soil and corn borer damage have passed.

He reported that although unusual weather conditions had permitted farmers to prepare the ground for planting, the seed should not be sown yet.

"The school's Ohio experiment station, he commented, has suggested these dates after years of field tests:

May 12, Ross county latitude; May 15, Franklin county belt; May 18, across the state from Marion county; May 21 in the Seneca area, and May 24 in northwestern counties.

Commissioners Confer On 'T. B.' Fund Shortage

LISBON, April 15.—Columbiana county commissioners were to meet in the courthouse this afternoon with representatives of the County Public Health league and other interested parties to attempt to find a solution to the acute money shortage now threatening to curtail treatment of tuberculosis patients in the county.

The commissioners have reported that all county funds will be utilized by the end of April for "T.B." patients now in hospitals at county expense.

The group is hoping to find some method of relieving the situation.

Steal Vet's Pay

EAST LIVERPOOL, April 15.—Police today held Charles Gordon of Industry, Pa., for federal authorities, who will take him to Cleveland tomorrow for arraignment before a United States commissioner on a charge of stealing a \$100 mustering out check from the mail box of Harold Thomas, World War II veteran.

COUPLE SLAIN ON YOUNGSTOWN STREET

YOUNGSTOWN, April 15.—Lawrence Young, 46, and Mrs. Carrie Lee White, 38, were shot to death here today.

Willie White, 45, husband of the slain woman, told police that he and his wife were walking along the street when Young came from behind, pointed a shotgun and told them not to move.

Mrs. White cried at Young not to shoot her husband, the latter told police White then ran down the street. He said he heard three shots and later the bodies of his wife and Young were found.

They forced double doors, took \$15 from a steel cabinet, and broke open a cigarette machine at the Frantz bakery.

They also picked a lock to enter a hotel room and steal a watch and ring owned by John Blankenship. Charles Gilbert lost a pocketbook containing \$6, when a pickpocket bumped him as he was boarding a bus.

College Seeks \$2,160,000

CLEVELAND, April 15.—Appointment of a committee to raise \$2,160,000 for equipment, scholarships and new buildings at Kenyon college, Gambier, was announced today by Robert A. Weaver, national executive chairman of the Kenyon development program.

Jobless Benefits To Gls Show Gain

COLUMBUS, April 15.—State unemployment benefits last month soared to a record \$13,218,000 with payments to jobless veterans under provisions of the G. I. bill increasing 77 percent over February. BUC Administrator Charles H. Jones reported today.

The increase in total payments under both the G. I. bill and the state unemployment compensation act approximated 20 per cent, Jones said.

Returned servicemen unable to find employment in March received \$6,244,000, compared with \$3,494,000 the previous month.

Payments to non-service personnel under the state law totaled \$6,974,000 in March, a decrease of 8 percent from February.

Jones said the increase in servicemen's readjustment allowances indicated that such payments soon would exceed those to non-service personnel.

Jobless servicemen, able to work and available for suitable employment, are eligible for \$20 weekly under G. I. bill provisions, Jones explained.

He added that payments could continue for 52 weeks, depending on veterans' length of war service.

East Liverpool Merchants Spur Move For Fast Time

EAST LIVERPOOL, April 15.—A movement to re-establish Daylight Saving time will get under way tonight when a committee representing retail merchants will urge action by city council.

Supporters of the movement point out that several western Pennsylvania towns, including Midland, where 2,000 East Liverpool workers are employed, are already on fast time. They argue that a switch to Daylight time will iron out the time mixup.

Pottery workers, however, many of whom must report early for duty, are offering bitter opposition to the plan.

Correspondence Courses Authorized for Veterans

WASHINGTON, April 15.—Veterans eligible for educational benefits now may take correspondence and extension courses by mail.

The veterans administration announced today it has signed contracts with 38 educational institutions, including Ohio University, to furnish mail courses ranging from academic subjects to a wide variety of trades and professions.

The original GI Bill of Rights ruled out correspondence courses by requiring attendance at a school or other training institution, but this was changed last December to authorize study by mail.

A veteran will receive no subsistence allowance, and the total cost of the courses he takes must not exceed \$500.

Infant Dies In Fire

CHILLICOTHE, April 15.—Fire swept the home of Mr. and Mrs. Jack Fuller yesterday killing their year-old daughter, Clarice. Fuller said he had been heating a bucket of roof tar on the stove and expressed belief the blaze resulted from the tar boiling over.

New York Anti-Gambling Drive Hits Racing Fans

NEW YORK, April 15.—Racing fans read "scratch sheets" on street corners at their own risk in New York City today.

Twenty-four men were arrested yesterday for reading those little leaflets, which list the day's horses, probable odds and late withdrawals.

Police, who are conducting an intensive anti-gambling drive, said when two or more persons congregate on street corners to read scratch sheets, provisions of the disorderly conduct law apply.

However, police added that possession of the sheets is not in itself a violation of the law.

Hold Services At Damascus

The Petticord Evangelistic party is engaged in revival services at Damascus Friends church, with services nightly at 7:30 except Saturday.

Earl and Catherine Smith, musicians of the party, will present vocal and instrumental music in each service. In addition to playing the piano, Mrs. Smith plays the electric organ and vibraphone.

Mrs. E. W. Petticord, wife of the evangelist, is in charge of the prayer meetings and personal work of the campaign.

Dr. E. W. Petticord's messages this week will be on the general theme, "Christianity or Religion?"

Tonight's subject will be "The Blood." Later subjects are: Tuesday, "Crossing the Red Sea"; Wednesday, "The Song of Redemption"; Thursday, "The Path of the Cloud"; Friday, "Manna."

The services will continue through Sunday, April 23.

The Smiths will direct services for boys and girls each afternoon this week, Monday through Friday, from 4 to 4:45 p. m.

Jobless Benefits To Gls Show Gain

COLUMBUS, April 15—State unemployment benefits last month soared to a record \$13,218,000 with payments to jobless veterans under provisions of the G.I. bill increasing 77 percent over February, BUC Administrator Charles H. Jones reported today.

The increase in total payments under both the G.I. bill and the state unemployment compensation act approximated 20 per cent, Jones said.

Returned servicemen unable to find employment in March received \$6,244,000, compared with \$3,494,000 the previous month.

Payments to non-service personnel under the state law totaled \$6,974,000 in March, a decrease of 8 percent from February.

Jones said the increase in servicemen's readjustment allowances indicated that such payments soon would exceed those to non-service personnel.

Jobless servicemen, able to work and available for suitable employment, are eligible for \$20 weekly under G.I. bill provisions, Jones explained.

He added that payments could continue for 52 weeks, depending on veterans' length of war service.

East Liverpool Merchants Spur Move For Fast Time

EAST LIVERPOOL, April 15—A movement to re-establish Daylight Saving time will get under way tonight when a committee representing retail merchants will urge action by city council.

Supporters of the movement point out that several western Pennsylvania towns, including Midland, where 2,000 East Liverpool workers are employed, are already on fast time. They argue that a switch to Daylight time will iron out the time mixup.

Pottery workers, however, many of whom must report early for duty, are offering bitter opposition to the plan.

Correspondence Courses Authorized for Veterans

WASHINGTON, April 15—Veterans eligible for educational benefits now may take correspondence and extension courses by mail.

The veterans administration announced today it has signed contracts with 38 educational institutions, including Ohio University, to furnish mail courses ranging from academic subjects to a wide variety of trades and professions.

The original GI Bill of Rights ruled out correspondence courses by requiring attendance at a school or other training institution, but this was changed last December to authorize study by mail.

A veteran will receive no subsistence allowance, and the total cost of the courses he takes must not exceed \$500.

Infant Dies In Fire

CHILLICOTHE, April 15—Fire swept the home of Mr. and Mrs. Jack Fuller yesterday killing their year-old daughter, Clarice. Fuller said he had been heating a bucket of roof tar on the stove and expressed belief the blaze resulted from the tar boiling over.

New York Anti-Gambling Drive Hits Racing Fans

NEW YORK, April 15—Racing fans read "scratch sheets" on street corners at their own risk in New York City today.

Twenty-four men were arrested yesterday for reading those little leaflets, which list the day's horses, probable odds and late withdrawals.

Police, who are conducting an intensive anti-gambling drive, said when two or more persons congregated on street corners to read scratch sheets, provisions of the disorderly conduct law apply.

However, police added that possession of the sheets is not in itself a violation of the law.

Tops Scholarship List

COLUMBUS, April 15—Robert Henry Martin, 17-year-old student at Dayton Fairview high school scored 278 to top a list of 7,730 Ohio high school seniors in recent general scholarship tests. Leading the field among the girls were Mary Elizabeth Ingalls of Howland High near Warren, and Roberta Maye Hanson of Shawnee High. Each scored 254.
